Enhancing Human Capital

ENERGY

POWER:

Client Profile

Proctor has partnered with clients in functions like – **Commercial, Projects, Radiation Protection, Technical, HSE, Human Resource, Audit, Finance, Accounts, Procurement and Business Development** areas. **Proctor's** research team have learned and applied the **technical knowledge** to help identify the perfect matched candidates in **Middle and Senior Level Management**.

How Proctor Helped/Proctors Role

We at **Proctor** have a strong foot hold in Power industry with the **niche clientele** from the core sectors like - **Hydro, Thermal, Nuclear and Wind**.

The Power sector is a capital and technology intensive sector requiring large number of engineers, technicians and other skilled workers. Power projects require specialized technical manpower during the project construction phase as well as the Operation and Maintenance phase. Due to the technology intensive nature of the business, technical and managerial competency is critical in ensuring timely implementation of projects and optimum performance upon commissioning. **Proctor** has dealt with this colossal task by **attracting candidates** by **showcasing client opportunities, focusing on brand image** of our clients and exposing them to an environment they want to be a part of in Power Industry.
